JEEVAL JOLLY JACOB

SOFTWARE DEVELOPER

Kottayam, Kerala, India | 9037465644 | jeevaljolly@gmail.com

LinkedIn | GitHub | Portfolio

Objective

Aspiring Software Engineer with hands-on experience in full-stack web and Android development, including founding and building production applications. Skilled in developing scalable solutions using ASP.NET Core, Kotlin, React, and modern web technologies. Seeking an entry-level or internship role to contribute to real-world engineering and product development.

Experience

Project Trainee | Spiderline Technologies **May 2026 - June 2026 (Internship)**

Engineered responsive, SEO-optimized multi-page interfaces and accessible HTML5/CSS3 components backed by Laravel, featuring dynamic hero banners and form validation.

Founder & Lead Software Engineer | J3 Labs **Jan 2026 – Present**

Directed the end-to-end product lifecycle and system architecture, deploying full-stack web and mobile applications using React, Kotlin, ASP.NET Core, and SQL.

IT Intern | Believers Church Medical College Hospital **Dec 2025 (3-week internship)**

Built a full-stack internal task management system using ASP.NET Core MVC, SQLite, a hashing-based avatar system, and a LINQ/AJAX notification engine.

Projects

ECHO - Anonymous Social App (Play Store)

- **Architected a high-fidelity reactive UI** using **Kotlin** and **Jetpack Compose** within an **MVVM** framework, to achieve real-time interactions and global state transitions.
- Engineered a **scalable cloud infrastructure** leveraging **Supabase (PostgreSQL)** and custom **RPCs**, real-time mood-aggregation engine that synchronizes anonymous user data across multiple devices using unique **Identity Keys**.

TMT - Task Manager Team (Live Site)

- Developed a secure **MVC**-based application with **RBAC** and **BCrypt** hashing to secure multi-role access and user credentials.
- Implemented asynchronous updates using **AJAX** and real-time analytics with **Chart.js**.

ISS Sensory Lab - NASA Space Apps Challenge 2025 (Live Site)

- Built a physics-based astronaut training simulation using **JavaScript** and **HTML5** Canvas.
- Implemented EVA gameplay, collision detection, and microgravity simulations.

Personal Portfolio - React, TypeScript (Live Site**)**

- Built a personal portfolio using **React**, **TypeScript**, and **Vite** with a modular UI.
- Implemented responsive UI using **Tailwind CSS** and automated deployment using **GitHub Actions (CI/CD)**.

Education

Master of Computer Application **2025 - 2027**

Saintgits College of Engineering | Kottayam, Kerala CGPA: 7.64

Bachelor of Computer Application **2021 - 2024**

Saintgits College of Applied Sciences | Kottayam, Kerala CGPA: 6.76

12th Higher Secondary **2021**

BMM English Medium School | Kottayam, Kerala CGPA: 7.68

10th Secondary **2019**

Delta English School | Sharjah, United Arab Emirates CGPA: 8.03

Leadership

Campus Lead – µLearn MGP **Feb 2026 - Present**

Represented Saintgits College as the official µLearn Campus Lead, driving community initiatives, organizing technical workshops, and coordinating with GTech, foundation mentors, and campus leadership to foster student engagement and skill development.

Class Representative | Saintgits College of Engineering: **July 2026 - Present**

Represented a batch of 60 MCA students in my Semester 3, streamlining academic operations, addressing peer concerns, and bridging communication between students and faculty.

Skills & abilities

Programming & Web:

JavaScript, TypeScript, HTML5, CSS3, React, C#, ASP.NET Core MVC, Python, Kotlin

Databases & Backend:

MongoDB, SQLite, SQL, REST APIs, LINQ, AJAX

Mobile & UI:

Android Development, Jetpack Compose, Material Design, Figma, Tailwind CSS, Bootstrap, jQuery

Tools:

Git, GitHub, Redux, Firebase, Supabase
